MY FATHER'S WORLD®

SEE THE WORLD THROUGH GOD'S EYES

WHAT MAKES MY FATHER'S WORLD UNIQUE?

My Father's World is dedicated to raising up generations of families who see the world through God's eyes and live according to that knowledge.

1 God's Word is Central

Celebrate the world through God's eyes. Our comprehensive preschool through high school program thoroughly integrates Bible with the study of history, geography, science, literature, art, and music while helping children learn a biblical worldview.

2 Engages the Whole Family with Hands-On Activities

Nurture the joy of learning for the entire family as you share inspiring read-alouds, simple hands-on projects, and gurgling science experiments. Take a family outing or plan a historic vacation. Dad is encouraged to lead family devotions using the Bible texts in the daily lessons. We help build family togetherness in a culture that often draws us apart. Our curriculum can be taught to children at several different grade levels all at the same time, resolving the issue of how to split your time among your children and keep track of many different topics.

3 Affordable Complete Packages for All Ages

Our comprehensive preschool through high school curriculum is designed for daycare, preschool, Christian school, and homeschool. It includes all subjects and combines top learning philosophies. We make our curriculum affordable (often less than \$2 a day per child) by incorporating reusable elements and choosing the best yet most reasonable and lasting resources.

4 Structured Morning, Flexible Afternoon

It is not all about school. We know families have other responsibilities. Our efficient yet complete schedule leaves time for life and service. Use the afternoon for trips to the library, shopping, laundry, family outings, or good old-fashioned outdoor play.

5 Wholesome Classic Literature

Timeless classics and inspiring biographies that develop character are read aloud for the whole family to enjoy together. Our curriculum packages recommend wholesome grade appropriate books for independent reading to inspire your child's love for learning.

6 "Open & Teach" Lesson Plans

Daily pre-planned lessons remove the guesswork and planning so you can spend more time making memories with your children. Some curriculum providers require as many as 8 different teacher's manuals per student. My Father's World combines its guidance into one streamlined guide that is easy-to-teach, enjoyable, academically strong, and focused on character development.

7 Missions Heart Beat

My Father's World is committed to the Lord of All, Who tenderly searches for people from every tribe and language. A portion of our profits supports mission work overseas, especially Bible translation projects. Our heart's desire is that someday soon all people would be able to read of God's love in their own language.

OUR APPROACH

My Father's World Christian homeschool curriculum combines the best of Charlotte Mason's ideas, classical education, and unit studies with a biblical worldview and global focus.

Charlotte Mason Influence

Charlotte Mason's educational philosophy includes living books, literature, timelines, Century Books ("notebooking"), and nature walks to inspire curiosity and a lifelong love of learning.

mfwbooks.com/charlottesmason

Classical Education: The Hebraic Way

Discover, Investigate, and Declare – our God-centric curriculum mirrors the Greco-Roman classical approach of grammar, logic, and rhetoric. But we teach your children Who God Is.

mfwbooks.com/classical

Unit Study Made Easy

Hands-On Unit Studies enhance retention. Simple hands-on projects organized in a chronological learning sequence without the hassle of planning. Kids love to learn – Parents love to teach.

mfwbooks.com/unitstudy

Bible Integration

Celebrate the world through God's eyes. We integrate the Bible, God's Truth, in history, geography, science, literature, art, music, and character development.

Children cycle through the Bible 3 times.

mfwbooks.com/bible

Global Focus and Bible Translation

Bring world and U.S. history to life by learning God's story of people – diverse countries and cultures – all needing the grace and truth that comes through the message of His Word.

mfwbooks.com/global

DISCOVER

Preschool - 3rd Grade

A one-year program for 2nd or 3rd graders if no siblings in 4th - 8th grade

INVESTIGATE: FAMILY LEARNING CYCLE

3rd - 8th Grade

Younger siblings may join in some activities.

BEGIN HERE

Integrates Bible, literature, science, music, and art with geography and history. Families continue to cycle through these five programs until their youngest is in high school. 7th - 8th graders repeat and expand on topics learned in 2nd - 3rd grade.

mfwbooks.com/cycle

High School

OVERVIEW

My Father's World preschool curriculum is a wonderful foundation for a life-long love of God and His Word as well as the perfect foundation for preparing pre-emergent readers.
— Leslie

DISCOVER MY FATHER'S WORLD

- ✓ Reading Readiness & Mastery
- ✓ Hands-On Activities & Science
- ✓ Developmentally Appropriate
- ✓ Preplanned Daily Lessons
- ✓ Manageable Time Commitment
- ✓ Bible Integration

From Preschool - 3rd grade, our year-long DISCOVER learning adventures take a thematic approach as you and your child explore God's world through faith-building read-alouds, hands-on manipulatives, science projects, math, art, music, and biblical messages woven throughout the curriculum. Each Curriculum Package contains all necessary materials for use as a full-year curriculum.

✓ Easy-to-Teach Daily Lessons

Our Teacher's Manual includes pre-planned daily lessons outlining each day's readings, activities, and discussions incorporating all package contents into an easy-to-use structured guide. Minimizing daily planning allows you to do more of what you love—spending time with your child.

JOY IN FAITH & LEARNING

✓ Hands-On Activities

All of our DISCOVER Curriculum Packages include hands-on activities to improve motor skills, help retention, and create a fun learning experience that will inspire your child's love for learning. Our easy-to-use guides include many additional crafts, games, and activities to reinforce key concepts.

✓ Bible Integration

A biblical perspective is thoughtfully and thoroughly integrated throughout the learning experience. As children learn about the amazing world they live in, they also learn to love and believe in the One who created it. Activities and Bible stories help develop practical life skills, focusing on character development.

ALL ABOARD THE ANIMAL TRAIN

All Aboard the Animal Train is our year-long, hands-on learning adventure for three-year-olds. This complete preschool program is flexible and simple to teach. It is designed for 36 weeks (3 weeks per unit) or can be condensed for an older three-year-old.

✓ A Structured Guide for 60 Minutes a Day

Hands-on learning couldn't be simpler! Easy-to-teach activities are all scheduled for you with almost no preparation. (Who has time to gather ribbon in 6 colors, cut out 50 little penguins, or plan new activities every day?) Your child will learn about 12 animals (one in each unit) through stories, finger plays, creative play, and colorful animal cookie cutters.

VOYAGE OF DISCOVERY: A PRE-K ADVENTURE

On the *Voyage of Discovery*, children will discover many exciting things about the world in which we live. They'll gain academic readiness skills with the alphabet and numbers and enjoy read-aloud times. They'll learn about their community – post office, fire station, church, grocery store – and make delightful science discoveries. They'll develop fine and large motor skills and increase in cognitive skills. Most important, children learn God's truth and are encouraged to live it in their lives.

✓ A Structured Guide for 75 Minutes a Day

The *Voyage of Discovery* is very flexible, and you can begin any time of the year. Lessons are about an hour, five days a week. Add additional time for free play outside.

✓ Bible & Math

GOD'S CREATION FROM A TO Z

God's Creation from A to Z is a learning adventure that will encourage a lifetime love of exploration and discovery. The 26 hands-on, easy-to-teach thematic units focus on the wonder of God's creation. The sun, moon, rocks, vegetables, elephants, butterflies, and dinosaurs are just a few of the exciting topics you will explore. Also includes units for Christmas and the Fruit of the Spirit.

✓ A Structured Guide for 90 Minutes a Day

Our daily step-by-step lesson plan walks you through each unit. Enjoy teaching Bible, science, reading, writing, character development, math, art, music, and literature with simple, low-prep hands-on projects. From bouncy boys to meticulous girls – there is plenty of fun in this program!

Overview

God's Creation from A to Z is a year-long complete kindergarten curriculum containing all necessary subjects and is ideal for homeschool or classroom.

Daily Lessons

For ease of preparation and teaching, especially for new homeschool teachers, lesson plans provide clear guidance. Daily lessons are 60-90 minutes.

Reading

Using a highly successful multi-sensory phonics approach that makes teaching reading easy and fun, our program combines hands-on active learning with engaging books and student sheets to teach letter names, 26 letter sounds, sound blending, and correct handwriting. Students learn to read and write short vowel words, and by mid-year are reading simple stories. Each unit also schedules a children's literature book (with alternate choices from a list of more than 400 books) related to the theme that becomes the focus of easily coordinated activities. The reading lessons are designed to be used successfully with five-year-olds and mature four-year-olds, as well as older children who are just beginning to learn sounds.

Math

Easily teach math concepts with engaging daily hands-on math routines, fun student sheets, and fascinating activities that promote active learning and encourage curiosity. Our approach ensures all typical kindergarten goals are taught, including counting objects, writing numerals, preparing and understanding charts and graphs, comparing, classifying, sequencing and understanding ordinal numbers, fractions (whole/half), clocks, money, and an introduction to addition and subtraction.

Bible, Science, Creative Thinking, Children's Literature, Art, and Music

One alphabet letter and a corresponding science topic are the focus in each week's unit. For example, in the Sun unit, students:

- Learn the letter S and number 1
- Investigate the sun
- Construct and use a simple but effective sundial
- Observe and chart grapes as they become raisins
- Paint a sun
- Listen to a silly book about shadows
- Learn that, like the sun, Jesus is the Light of the World.

Character Development

A special focus is integrated into each unit.

- The turtle unit teaches "I don't quit – I persevere!"
- The horse unit teaches "I obey right away."
- The zebra unit teaches "I can't hide anything from God."

By mid-year, students are reading simple stories.

Complete Kindergarten Curriculum

Includes Reading, Math, Bible, Character Development, Science, Children's Literature, Art, and Music

Is My Child Ready for Kindergarten?

We usually recommend waiting to begin kindergarten until the year your child will be five years old in September. Some older four-year-olds are ready for kindergarten. When it's time to make this decision, you can ask yourself several questions about your child:

- Is he ready to sit down and do 20–30 minutes of written work each day?
- Does he have the manual dexterity to begin writing letters and words, and is he interested in doing so?
- Is your child taking time to sit down to draw and color on his own initiative?
- Is he excited about starting school?

If you can answer yes to these questions, your child is probably ready for *God's Creation from A to Z* kindergarten curriculum. If your child is not strong in these areas, we recommend our Pre-K curriculum, *Voyage of Discovery* (p. 10).

What If My Child is Already Reading?

Even if your five-year-old is already reading, we still recommend using our kindergarten program. It is much more than simply a phonics program and includes suggestions for advanced students. Powerful biblical truths—many that even adults wrestle with—are perfectly sized for a five-year-old. Children gain a wealth of knowledge about God's love and His character.

Hands-on thematic science units, interwoven with biblical concepts, build a love of learning as your natural-born explorer interacts with nature. Time spent cuddled up together with a good book and doing related activities will create memories for a lifetime. Almost all young children benefit from the fine motor skill development in the program and time to mature physically, emotionally, and spiritually before advancing to the next school year.

I love ... the focus on nurturing a love for learning, and fostering an appreciation for God and the world that He made.
- Tammy

Butterfly Garden

Watch tiny caterpillars turn into beautiful Painted Lady butterflies with this ingenious, transportable butterfly habitat. Includes a certificate to mail in for caterpillars and food (can be shipped only within the continental U.S. and Alaska).

⚠ CHOKING HAZARD Small parts. Not for under 3 yrs.

Ant Mountain

Watch the world's tiniest engineers dig tunnels and build roads right before your very eyes. Includes a certificate to mail in for ants; can be shipped only within the continental U.S. (except Oregon) and Canada. ⚠ CHOKING HAZARD Small parts. Not for under 3 yrs.

LEARNING GOD'S STORY

Learning God's Story is our complete, easy-to-teach first grade curriculum with a phonics- and Bible-based reading program. The integrated lessons also include language arts, history, science, math, art, and music.

✓ A Structured Guide for 2 Hours a Day

Using a thematic approach, this learning adventure focuses on Bible history from Genesis to Revelation. Phonics lessons develop the needed skills to read Bible stories from our *Bible Reader*. Students narrate the Bible story and create a lovely keepsake *Bible Notebook* in which they summarize and illustrate Bible stories. Weekly memory verses selected from Proverbs help strengthen handwriting skills as well as biblical character.

My daughter made leaps and bounds with her math and language arts skills. I believe it had a lot to do with the foundational aspects of My Father's World in 1st grade. - Reza

✓ Learn More at mfwbooks.com/firstgrade

Overview

Learning God's Story is our complete, easy-to-teach first grade curriculum with a phonics- and Bible-based reading program. The integrated lessons also include language arts, history, science, math, art, music, and read-alouds.

Hands-On Projects

Help students understand and experience the world of the Bible as you create a timeline, make Bible-times costumes, and celebrate a Sabbath meal.

Reading

Step-by-step instruction in phonics makes teaching reading easy. *Learning God's Story* begins with a quick review of letter names and sounds, followed by in-depth teaching of all necessary phonics to produce an independent reader.

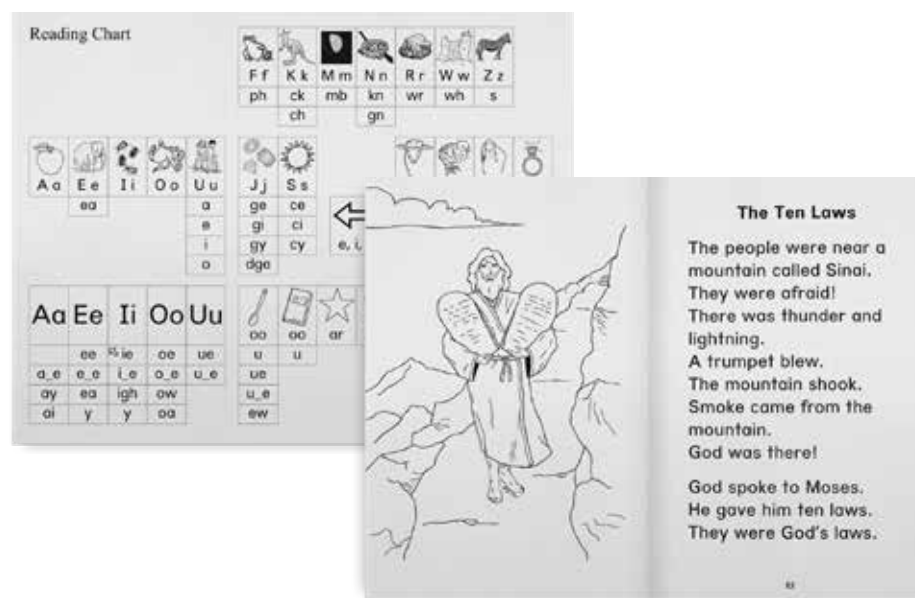

The Teacher's Manual provides easy-to-follow daily lesson plans that teach new skills with continuous review. Student worksheets reinforce phonics, spelling, and handwriting skills. By week 11 students are reading Bible stories in their own *Bible Reader*.

Science

Learn about nature using engaging science books, simple activities, and outside exploration time.

Math

Hands-on activities and math manipulatives are combined with a colorful math workbook to form a complete first grade math program that helps children truly understand foundational math concepts.

Phonics-based reading instruction includes the *Bible Reader* with over 50 stories

Complete First Grade Curriculum Includes Reading, Writing, Bible, History, Science, Math, Character Development, Art, and Music

Is My Child Ready to Begin First Grade?

If your child has not successfully completed *God's Creation from A to Z* kindergarten curriculum, please take some time to determine if your child is ready to begin first grade:

- Does your child know the 26 letter sounds (consonants and short vowels)? Letter names are not as important.
- Is your child generally able to print alphabet letters correctly? Is he able to place letters accurately on kindergarten-sized lined paper?
- Can he easily read short words such as *hat*, *pig*, and *men* without your help and without any accompanying pictures? Was he taught how to blend sounds, not just memorize words?
- Is he developmentally able to sit long enough to copy four to six short words on kindergarten-sized lined paper without complaining or becoming tearful?
- Is your child mature enough to sit cooperatively for 20–30 minutes at a time for structured school activities?
- Will your child be six by the beginning of school? (A mature five-year-old about whom you can answer yes to all of the above questions may seem ready to begin first grade. However, we still encourage you to consider using *God's Creation from A to Z* kindergarten curriculum because of all the wonderful things your child will learn about a relationship with Jesus through the integrated Bible and science. Kindergarten reading and writing assignments can be adjusted to meet the needs of a child who is already reading simple words.)

The first grade program is hands-on and easy-to-teach. It makes learning fun for both child and parent. – H. C.

If you can answer yes to all of the above questions, your child is likely ready for first grade. If not, we recommend that you begin with *God's Creation from A to Z* kindergarten curriculum. The skills taught in kindergarten—especially reading short vowel words fluently for many months—give a child the foundation needed for success in first grade. *Learning God's Story* first grade curriculum quickly reviews these skills in the first month of school and then moves on to new skills at a rapid pace.

We absolutely LOVE the program. My first grader is thriving and for the first time he looks forward to school. It's enough routine for him to know what's next and enough variety to keep things interesting. Most of all, we love the fact that so much of the curriculum points him to Jesus! – T. A.

ADVENTURES IN U.S. HISTORY

Travel back in time and explore U.S. history from a Christian perspective with fascinating stories, hands-on activities, a timeline, and a student-created history notebook. Study the names of Jesus, learning about His character while reading from a grade-level Bible and enjoying correlated science lessons.

✓ A Structured Guide for 3 Hours a Day

Our Daily Lesson Plan guides you through a year of U.S. history & geography including Bible, science, music, art, and read-alouds. (see p. 64)

✓ Bible, Art, & Music

Overview

Includes Bible, U.S. History & Geography, Science, Music, Art, and Read-Alouds.

Travel back in time and explore U.S. history and patriotic symbols from a Christian perspective with fascinating stories, hands-on activities, a timeline, and a student-created history notebook. Also includes U.S. geography, Bible, science, art, music, and more.

NOTE: *Adventures in U.S. History* is a one-year program for 2nd or 3rd graders who are the oldest in the family. 2nd or 3rd graders with older siblings in 4th– 8th grade go directly into the multi-age Family Learning Cycle (p. 5), joining in their siblings' current program. This ensures that a parent is only teaching one program for all 2nd– 8th graders.

Teacher's Manual

- Enjoy using our daily lesson plans with easy-to-use weekly charts that schedule books and hands-on activities. We do the lesson planning for you so that you have more time to enjoy teaching!
- Includes free Synergy Guide (see p. 65).

Bible

- Discover the character of Jesus as you study about the Bread of Life, the Lamb of God, the Good Shepherd, the Rock, and more, with hands-on activities and memory verses. Children enthusiastically read the Bible for themselves using the *NIV Discoverer's Bible* adapted for beginning readers, with large 12-point type.

U.S. History and Geography

- Enjoy U.S. history with a collection of great books and delightful stories about children in the early days of the U.S. Simple hands-on activities and a timeline reinforce learning.
- Encourage a respect and understanding for our American heritage as you study patriotic symbols such as the flag, the Pledge of Allegiance, and the Statue of Liberty.
- Learn U.S. geography with a brief trip through the 50 states with map work and hands-on projects.
- Integrate history, geography, art, composition, and handwriting as students create a United States notebook.
- Read-aloud books in the Deluxe Package enrich the study of history.
- Add to your children's learning with *Book Basket™*, an extensive list of the best books that stimulate inquisitive minds and help grow a love of reading that will last a lifetime. Learn more on p. 58.

We LOVE Adventures!
I don't know who likes it more, the children or me! – D. C.

Science

- Explore the fascinating world of science: birds, stars, weather, plants, animals, atoms, energy, gravity, friction, sound, computers, and much more with simple hands-on science activities.
- Encourage an appreciation of God's creation through weekly nature walks.

Art and Music

- Enjoy hands-on art projects related to history, geography, and the Bible.
- Learn patriotic songs.
- Develop music appreciation through an introduction to Tchaikovsky's music.
- Nurture art skills—drawing, using colored pencils and colored markers, and beginning painting.

Math, Language Arts, and Foreign Language

- Add math (p. 63)
- Add language arts (p. 59)
- Foreign language is optional but highly recommended (p. 57).

Is My Child Ready for Adventures in U.S. History?

A child should have a strong foundation in these skills to begin *Adventures in U.S. History*:

- Can your child write or copy one to two sentences easily and cheerfully?
- If you were to read the story of David and Goliath to your child, would he be able to write several simple sentences about the story? (Spelling and punctuation do not need to be correct.)
- Have your child read a sample from our *Bible Reader* (mfwbooks.com/biblereader). Can he read it fairly easily? Please note that needing to sound out words is common at this age.

If you answer yes to these questions, your second or third grader is probably ready for *Adventures*. However, if he is older than eight or has studied U.S. history in-depth recently, we recommend *Exploring Countries and Cultures*.

If your child is not strong in the above areas, we recommend *Learning God's Story*, our first grade curriculum (p. 16).

There is no way I could homeschool my kids without My Father's World. I just open the manual each day and do what it says ... I have complete confidence that my kids are learning everything and more that they need to help them be their God-given best. – Kate

Science experiment in *Adventures*

It is very thorough, yet gentle...an amazing introduction to American history for this age group.
– Heather

OVERVIEW

...we just finished our achievement tests for the year and my 4th, 7th, and 8th graders scored at least 3 grade levels higher in all areas. – Nicole

GROW WITH MY FATHER'S WORLD

- ✓ Compact Schedule
- ✓ Thorough Bible Integration
- ✓ Unites the Family
- ✓ Hands-On Activities
- ✓ Kids Learn from Each Other
- ✓ Global Focus

Students in 3rd - 8th grade begin our INVESTIGATE cycle with *Exploring Countries and Cultures*. Like all of our INVESTIGATE packages, this provides a full year of Bible, geography, history, literature, science, music appreciation, and art activities for a range of ages. Once the year is completed, all 3rd - 8th grade children move to the next INVESTIGATE curriculum and continue learning together.

Teach one child or several children at different grade levels all at the same time, with the same curriculum package.

Our Teacher's Manuals explain what level of content should be taught to each child. A 7th grader, for example, completes assignments more thoroughly than a 3rd grader while using many of the same resources. This keeps the family together when possible and assures that the parent is only teaching one complete INVESTIGATE curriculum each year. mfwbooks.com/cycle

✓ Activities can be varied by age:

2nd - 3rd Grade

Write 1-2 simple sentences about the science topic.

4th - 6th Grade

Write 2-4 paragraphs with more complex sentences.

7th - 8th Grade

Write 1-2 pages with more detailed information.

I HAVE A CHILD IN 2ND - 3RD GRADE.

✓ Recently studied U.S. History?

No. *Adventures in U.S. History*

Yes. *Exploring Countries & Cultures*

✓ Older siblings?

Yes. Join the INVESTIGATE Family Cycle with older siblings. Activities in the INVESTIGATE Cycle are designed for 2nd - 8th graders.

I HAVE 1 OR MORE CHILDREN IN 4TH - 8TH GRADE.

✓ I am new to My Father's World.

Start with *Exploring Countries & Cultures*.

Geography sets the foundation for chronological world and U.S. history. Understanding diverse cultures before studying history helps the student gain God's heart for the world.

✓ Finished *Exploring Countries and Cultures*?

Continue with *Creation to the Greeks*.

Upcoming 2nd graders join in the Family Cycle.

EXPLORING COUNTRIES & CULTURES

Travel the world as you explore diverse countries and cultures while learning geography. Read true stories of missionaries and the Gospel of Matthew to understand God's heart for the world. Students are introduced to the physical and spiritual needs of mankind as they learn about ecosystems and lifestyles in different parts of the world. Prepare traditional food, make native crafts, and listen to ethnic music.

✓ A Structured Guide for 4 Hours a Day

Our Daily Lesson Plan leads you and your family through all subjects with a one-year concentration of geography. Establish a foundation for God's hand in history and His love for all people. Teach your family to pray for the world. (see p. 64)

Overview

This one-year concentration of geography establishes a foundation for God's hand in history and His love for all people. Our simple lesson plans and resources are all you need for Bible, science, geography, art, music, and read-alouds. Hands-on projects and activities suitable for all ages guide the family through a thematic year of countries and cultures. Extension activities are included for older students.

Teacher's Manual

- We do the lesson planning, you enjoy the teaching!
- Simple daily lesson plans in chart format guide the teacher through books to read and simple hands-on activities to reinforce the study of geography. See a sample lesson plan on p. 64.
- Includes free Synergy Guide (see p. 65).

Bible

- Read about missionaries and the character traits they portrayed.
- Pray for different ethnic groups around the world.
- Focus on Matthew with weekly memory verses and daily readings.

Geography

- Explore maps and globes as you travel the world.
- Memorize country names and locations with a fun full-color geography game.
- Create illustrated geographic vocabulary cards.
- Develop research skills as you investigate the continents.
- Explore 15 countries through simple hands-on activities (cooking, flag making, passport, etc.).

Reading

- Develop a love for reading using "living" books from our optional library list of picture books, fiction, and non-fiction (p. 58).

Science

- Learn about habitats (desert, rain forest, grassland, forest, polar region, etc.) in countries studied.
- Take a weekly nature walk and complete a nature journal.
- For 7th and 8th graders, add Apologia science (purchase separately) (p. 62).

Art and Music

- Enjoy art and music from countries you "visit" this year.

Math, Language Arts, and Foreign Language

- Add math (p. 63)
- Add language arts (p. 59)
- Add foreign language (optional) (p. 57)

Includes Bible, Geography & Cultures, Science, Art, Music, and Read-Alouds

The Complete Book of Animals (add for second and third graders)

Study science while practicing reading skills with this high-interest book. Use when studying animals on each continent in *Exploring Countries and Cultures* or when studying the animal kingdom in *Exploration to 1850*. Scheduled in the lesson plans; optional but highly recommended. Only one per family needed.

7th- 8th Supplement for *Exploring Countries and Cultures* (required in addition to the Basic or Deluxe Package)

Includes four inspiring missionary biographies and resources for research. All items are scheduled in your lesson plans for *Exploring Countries and Cultures*.

As a former college educator, I appreciated the well-written, well-planned rhythm of the curriculum. Thank you for supplying our family with the materials we've needed to give our kids a biblically-centered, academically-strong education.

— Laura

CREATION TO THE GREEKS

Travel back in time to Old Testament days and see God's hand throughout ancient history. Learn how the biblical account fits in with other civilizations such as Egypt, Greece, and Babylon. Old Testament stories and celebrations come to life, while science with experiments points to God's design including dinosaurs and other discoveries.

✓ A Structured Guide for 4 Hours a Day

Our Daily Lesson Plan leads you and your family through all subjects with a one-year concentration on civilizations and events from Old Testament times. Explore ancient history alongside the Bible while enjoying classic literature and celebrating biblical feasts. (see p. 64)

✓ 7th & 8th Graders Add General or Physical Science

✓ Learn More at mfwbooks.com/ctg

Overview

Includes Bible, History, Science,
Art, Music, and Read-Alouds

Creation to the Greeks follows *Exploring Countries and Cultures* and begins a four-year chronological study of history.

We highly recommend that your family completes *Exploring Countries and Cultures* before beginning your chronological study of history. This foundational study of countries, cultures, geographic terms, and God's heart for all people makes all future study of history more understandable and retainable. Learn about our multi-age Family Learning Cycle on p. 5.

This program is for 4th– 8th graders and 2nd– 3rd graders with older siblings in the program.

Teacher's Manual

- Daily lesson plans are in an easy-to-use weekly chart format. Many activities will be suitable for all ages; additional reading is sometimes suggested for older students. Simple hands-on activities are included to reinforce the study of history. We do the lesson planning for you so that you can enjoy the teaching! Sample lesson plan is on p. 64.
- Includes free Synergy Guide (see p. 65).

Bible/History

- Study Old Testament stories in depth.
- Participate in the Jewish feasts celebrated in Old Testament times and learn how they point to Jesus, the Messiah.
- Integrate Old Testament events with the history of other civilizations. Learn why Israel and Judah feared Assyria and how God triumphed over Egypt.
- Complete a timeline and create a history notebook for major events and key people. Also includes map work and illustrations to color.
- Enjoy playing the ancient Egyptian game of Senet, writing in cuneiform on clay tablets (cookies), and sampling food from Old Testament times.
- Library books provide enrichment for topics that you study. We provide an optional list of recommended books for independent reading. Learn more on p. 58.

Read-Alouds

- Inspire children to live the Christian life as you read books by Patricia St. John.
- Enjoy classic Greek stories as well as famous fables.

I love the organized lesson planning and the chronology of history. The "flow" of learning is effortless.
– Crista

Science

- Focus on the first six days of Creation with science lessons and experiments.
- Study pyramids using hands-on activities.
- 7th and 8th graders use Apologia science instead of the above (purchase separately; see p. 62).

Art and Music

- Music appreciation lessons focus on Vivaldi, Bach, and Handel.
- Art lessons include drawing as well as Egyptian and Greek themes from a godly perspective.

Celebrating a Biblical Feast

Math, Language Arts, and Foreign Language

- Add math (p. 63)
- Add language arts (p. 59)
- Vocabulary lessons focus on Greek roots this year and Latin roots next year using *English from the Roots Up*.
- Foreign language is optional but highly recommended (p. 57).

Homeschooling is definitely the way to go. We can't imagine a better way to raise our children.
– Natalie

Working with Publishers to Promote a Biblical Worldview

We are committed to providing resources promoting a biblical worldview. This is done understanding the Bible to be the only perfect source that is fully accurate. In some instances, My Father's World has had the privilege of influencing secular publishers to edit the content of their books. For example, our editorial team has been able to change evolution references to more neutral language acceptable to most audiences. Sometimes it is as simple as changing phrases like "millions of years ago" to "many years ago."

Please pray that God will continue to open doors for My Father's World to work with more publishers in the future.

ROME TO THE REFORMATION

Travel back to the time of the Romans and learn how they set the stage with their *Pax Romana* for the central event of all history – the birth of Jesus. Gain a New Testament overview with a special focus on the books of Luke, Philippians, and 1 John. View Roman civilization, the Middle Ages, the Renaissance, and the Reformation in the context of Christ and the early church, while also studying astronomy and the human body from a biblical perspective.

✓ A Structured Guide for 4 Hours a Day

Explore Rome, the life of Jesus, early church history, and other exciting topics during this time period as our Daily Lesson Plan leads your family through all subjects in this one-year curriculum. Each day's easy-to-teach lesson will help deepen your children's understanding of God and the world around them. (see p. 64)

Overview

Includes Bible, History, Science,
Art, Music, and Read-Alouds

Rome to the Reformation follows *Creation to the Greeks* in our chronological history-based study for students in 2nd-8th grade.

If your family has never used *Exploring Countries and Cultures*, we highly recommend it before beginning your chronological study of history. This foundational study of countries, cultures, geographic terms, and God's heart for all people makes all future study of history more understandable and retainable. Learn about our multi-age Family Learning Cycle on p. 5.

Teacher's Manual

- Daily lesson plans are in an easy-to-use weekly chart format that lists each subject with many simple hands-on activities to reinforce the study of history. Most activities are suitable for all ages; some additional reading is scheduled for older students. We do the lesson planning so that you can enjoy teaching!
- Includes free Synergy Guide (see p. 65).

Bible/History

- Rome, the life of Jesus, early church history, Middle Ages, Renaissance, and Reformation from a Christian perspective.
- Hands-on projects: make a Roman writing tablet, enjoy a Roman feast, construct a Roman arch, sample foods from the Middle Ages, play Medieval games, and more.
- Learn to play chess and construct a model castle.
- Map work, history notebook, and timeline.
- Library list of optional recommended books to enrich your study. Learn more on p. 58.

Read-Alouds

- Selected books are integrated with the study of history to inspire and develop godly character.

Art and Music

- Art lessons include drawing as well as Roman, Early Church, and Middle Ages art from a godly perspective, using *God and the History of Art* (purchase separately).
- Music appreciation lessons focus on Haydn, Beethoven, and Mozart.

*My boys love Rome to the Reformation!
Augustus Caesar's World and The Bronze Bow have been a hit!
They did not want to quit reading them! I cried at the end of
The Bronze Bow. We loved it. We are getting ready to plan
our Roman feast and move into the Middle Ages.
Of course, they can't wait to learn chess.
My boys are getting a lot out of our Bible study this year.
The human body science has been our favorite so far!
– Melissa (mom of six)*

Science

- Human body – participate in simple experiments and make simple models of body systems.
- Astronomy – explore the universe from a Christian perspective.
- Optional weekly nature walk and nature journal.
- 7th and 8th graders use Apologia science instead of the above (purchase separately; see p. 62).

Math, Language Arts, and Foreign Language

- Add math (p. 63)
- Add language arts (p. 59)
- Vocabulary lessons focus on Latin roots using *English from the Roots Up* (purchase separately).
- Foreign language is optional but highly recommended (p. 57).

EXPLORATION TO 1850

Explore the New World with Leif Ericsson, Christopher Columbus, and others. Discover the amazing story of the U.S. from colonial times to the California gold rush. Learn about the courage and faith of many who came to America. Help children understand man's struggles in world exploration as your family memorizes the book of James.

✓ A Structured Guide for 4 Hours a Day

Our easy-to-teach Daily Lesson Plans help you and your student explore God's world of animals, learn Godly character and faith through past presidents and American heroes of faith, and read first-hand about the struggles and triumphs of our nation's founding. Bible, U.S. and world history, literature, science, art, music, and read-alouds are all incorporated into one exciting learning adventure. (see p. 64)

Overview

Includes Bible, History, Science,
Art, Music, and Read-Alouds

Exploration to 1850 follows *Rome to the Reformation* in our chronological history-based study for students in 2nd– 8th grade.

Teacher's Manual

- Daily lesson plans are in an easy-to-use weekly chart format that lists each subject with many simple hands-on activities to reinforce the study of history. Most activities are suitable for all ages; some additional reading is scheduled for older students. We do the lesson planning so that you can enjoy teaching!
- Includes free Synergy Guide (see p. 65).

Bible

- Study the book of James using a children's inductive Bible study, and memorize verses from James.
- Be inspired by the stories of faithful Christians and the godly faith of early Americans.

History

- Study world and U.S. history from the early European explorers of North America through 1850.
- Learn about U.S. presidents and U.S. geography with a brief trip through each state.
- Integrate history with art, composition, and handwriting as you make a history notebook.
- Enjoy simple hands-on projects, map work, and timeline.
- Study your own state as you learn how to write a research paper.
- Enrich your study with our library list of optional recommended books. See p. 58.

Read-Alouds

- Selected books are integrated with the study of history to inspire and develop godly character.

Science

- Explore the world of plants and animals from a Christian perspective, including an introduction to scientific classification of living things.
- Create a nature journal when you study your state's history.
- 7th and 8th graders use Apologia science instead of the above (purchase separately; see p. 62).

*How perfect was it
memorizing the book of
James while learning about
the humble difficulties of
establishing the United
States? Just WOW!*
– P. B.

Art and Music

- Sing the great hymns of our faith and learn their stories.
- Enjoy art lessons from a godly perspective.
- Review music history with a focus on Schubert, Mendelssohn, and Chopin in music appreciation lessons.

Math, Language Arts, and Foreign Language

- Add math (p. 63)
- Add language arts (p. 59)
- Foreign language is optional but highly recommended (p. 57).

*...That I get to sit around the table and learn along with my boys
about the Bible and His-story is something I will treasure my whole
life. – Gwen*

2nd – 3rd Grade Supplement for *Exploration to 1850* (required in addition to Basic or Deluxe Package)

Key “living” books selected specifically for 2nd and 3rd graders make history come alive for younger students. Enhance your study of the animal kingdom with *The Complete Book of Animals*.

1850 TO MODERN TIMES

Enjoy learning U.S. and world history as you solve cryptography puzzles, bake Vietnamese Apricot Coconut Cake, and recite the Gettysburg Address. Learn basic Christian beliefs and live out the amazing privilege and responsibility of sharing God's story of love with all people. Learn how prayer greatly impacts our world and its history, recognizing God's ultimate power in our universe.

✓ A Structured Guide for 4 Hours a Day

During this year-long journey weaving American and world history together, our Daily Lesson Plans will guide you and your student through pivotal points in the forming of the country we know today. Students will engage in readings and activities to strengthen their knowledge and faith, while preparing them for a future of academic excellence. (see p. 64)

Overview

Includes Bible, History, Science,
Art, Music, and Read-Alouds

The last year of chronological history-based study for students in 2nd-8th grade is *1850 to Modern Times*.

This program uses *The Story of the World*, Volume 4, as well as the corresponding *Activity Book*. The content this year is more difficult, so the activity book's review questions are needed to reinforce learning. It includes maps and activities as well as assignments for outlines or summaries for each chapter to help students develop writing skills.

Teacher's Manual

- Daily lesson plans are in an easy-to-use weekly chart format that lists each subject with many simple hands-on activities to reinforce the study of history. Most activities are suitable for all ages; some additional reading is scheduled for older students. We do the lesson planning so that you can enjoy teaching!
- Includes free Synergy Guide (see p. 65).

Bible

- Learn about basic Christian beliefs with stories from around the world.
- Be inspired by the stories of faithful Christians.
- Participate in scheduled, guided prayer for the United States (or your country of residence) and other countries around the world with varying beliefs and customs.
- Complete a six-week Bible study focusing on God's faithfulness to mankind and the call for all believers to be a blessing and a witness to others.
- Sing the great hymns of our faith and learn their stories.

History

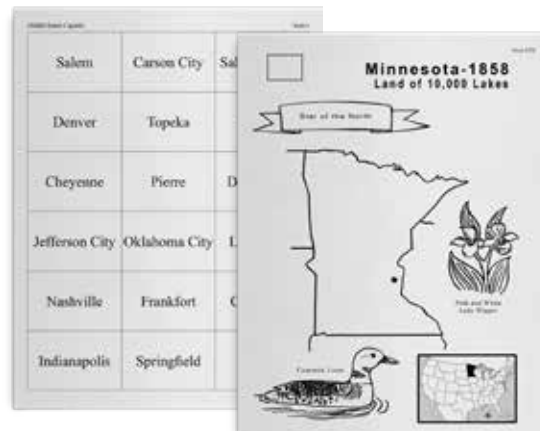

- Study world and U.S. history from 1850 to modern times with a detailed timeline book.
- Integrate history with composition and handwriting in a history notebook. Enjoy cooking delicious recipes from the past.
- Learn about U.S. presidents and U.S. geography with a brief trip through the states.
- Library books provide enrichment for topics that you study. We provide an extensive list of optional recommended books for independent reading. Learn more on p. 58.

Read-Alouds

- Selected books are integrated with the study of history to inspire and develop godly character. Learn more on p. 58.

Science

- Study chemistry and physics with many hands-on experiments.
- 7th and 8th graders use Apologia science instead of the above (purchase separately; see p. 62).

Art and Music

- Focus on U.S. patriotic songs and composers such as Foster, Sousa, Armstrong, and Gershwin.
- Sing the great hymns of our faith and learn their stories using *Then Sings My Soul* (purchase separately).
- Continue to develop a variety of art skills with lessons from *God and the History of Art* (purchase separately).

Math, Language Arts, and Foreign Language

- Add math (p. 63)
- Add language arts (p. 59)
- Foreign language is optional but highly recommended (p. 57).

Note for Second and Third Grade:

The content of *1850 to Modern Times* is difficult for 2nd and 3rd graders; many of the books are written at a higher comprehension level than in our other history programs. The history content is often troubling – describing wars and human cruelty – and not suitable for younger students. The author of *The Story of the World* does not recommend using Volume 4 with 3rd grade or younger, and we agree. However, 2nd and 3rd graders can still join you for Bible, science experiments, science readings (the easier sections), and president and state studies. Your 2nd and 3rd graders will have an opportunity to repeat *1850 to Modern Times* in 7th or 8th grade, when they will have the maturity needed to fully comprehend the complex information.

2nd – 3rd Grade Supplement for *1850 to Modern Times* (required in addition to Basic or Deluxe Package)

Fascinating literature books as well as two activity books help make history and U.S. geography come alive for younger students. All of these great books are conveniently scheduled in your lesson plans. You won't want to miss any of them!

Scheduled as an optional resource:
American Pioneers and Patriots
(purchase separately)

OVERVIEW

We are beginning our 11th year with your curriculum. ...It has proven to provide a solid college preparatory foundation but most importantly, my children have a solid biblical foundation and worldview that cannot be taken away. - Shani

- Comprehensive Four-Year Program
- College-Prep
- Parent-Guided Independent Study
- Bible, History, and English Integrated
- Timelines and Maps
- Service Projects
- Math and Science
- Full Range of Electives

GRADUATE WITH MY FATHER'S WORLD

Each high school program is a one-year curriculum that integrates history (with government/economics/geography), English, and Bible (3 full-year credits) with detailed daily lesson plans written to the student for parent-guided independent work. The curriculum incorporates all needed language arts including composition (writing instruction and assignments), grammar, literature analysis, and reading lists. Each year of high school includes scheduled participation in student-selected community service projects.

History: With Government and Economics	4 Credits
Includes Ancient History, World History, and U.S. History.	
English: Literature, Composition, Grammar, and Research	4 Credits
Includes one semester of Speech.	
Bible: With Biblical Worldview and Apologetics	4 Credits
High school students embrace a strong biblical worldview while developing analytical skills and spiritual maturity. Students address many thought-provoking life issues including, "Will I live for my pleasure, or will I live for God's glory?"	

COMPLETE YOUR CURRICULUM

Our recommended math, science, and elective courses:

Math: Geometry, Algebra 1 & 2, Advanced Math	Up to 4 Credits
Science: Biology, Chemistry, Physics, Anatomy	Up to 4 Credits
Foreign Language	Up to 4 Credits
Logic	.5 Credit
Fine Arts	.5 - 1 Credit
Health	.5 Credit
Personal Finance	.5 Credit
ACT/SAT Prep	

ANCIENT HISTORY & LITERATURE

Ancient History and Literature is a one-year curriculum that integrates history, English, and Bible (3 full-year credits). Throughout the year, our pre-planned lessons guide the student through the entire Old Testament, while applying its truths to their lives with insightful questions and discussions. Students develop composition skills and analyze literary classics from a Christian perspective with invigorating vocabulary, grammar, and critical thinking questions. My Father's World believes *Ancient History and Literature* is critical to a biblical scope and sequence, integrating Old Testament readings with the study of ancient cultures and literature.

✓ A Structured Guide to Parent-Guided Independent Study

Our Daily Lesson Plans are written to the student for parent-guided independent work and incorporate all subjects and recommended courses. On Fridays, the student and parent have a conference to discuss the week's topics and review completed work.

✓ Bible: Old Testament

WORLD HISTORY & LITERATURE

World History and Literature is a one-year curriculum for high school that integrates history, English, and Bible (3 full-year credits). As students journey through the curriculum's pre-planned daily lessons, they will experience spiritual growth as they read the entire New Testament and other thought-provoking Christian literature. Students will also engage in readings and analysis of classic literature written in or about the historical period being studied while learning valuable research and composition methods.

✓ A Structured Guide to Parent-Guided Independent Study

Our Daily Lesson Plans are written to the student for parent-guided independent work and incorporate all subjects and recommended courses. On Fridays, the student and parent have a conference to discuss the week's topics and review completed work.

U.S. HISTORY TO 1877

U.S. History to 1877 is a one-year curriculum for high school that integrates U.S. history, government, English, and Bible (3 full-year credits). Throughout the year, students will develop a biblical worldview in their daily life, in areas such as history, economics, law, and science. This curriculum focuses on the time of early exploration to the Civil War and dives into the structures and functions of the U.S. Government through reading historical documents, political speeches, and literature written during that time period.

✓ A Structured Guide to Parent-Guided Independent Study

Our Daily Lesson Plans are written to the student for parent-guided independent work and incorporate all subjects and recommended courses. On Fridays, the student and parent have a conference to discuss the week's topics and review completed work.

✓ English: American Literature

U.S. HISTORY 1877 TO THE PRESENT

U.S. History 1877 to the Present with economics, English, history, and Bible (3 full-year credits) is a one-year curriculum intended for 12th grade, to follow *U.S. History to 1877*. Students will complete their study of United States history and delve into national and international events from a Christian perspective. They will also refine their oral communication skills to be effective communicators for God's Kingdom and study economics and biblical financial principles. Daily Bible readings are scheduled from JourneyEveryday.com.

✓ A Structured Guide to Parent-Guided Independent Study

Our Daily Lesson Plans are written to the student for parent-guided independent work and incorporate all subjects and recommended courses. On Fridays, the student and parent have a conference to discuss the week's topics and review completed work.

✓ English: Modern Literature & Speech

HIGH SCHOOL ELECTIVES

Introduction to Logic Elective Package

Logic and critical thinking skills are important for all students, but the textbooks are often dry and intimidating. Finally, there is a solution! *The Fallacy Detective* and *The Thinking Toolbox* are written from a Christian perspective with a friendly, humorous style by two homeschooled brothers. This course will teach your student how to recognize bad reasoning, covering the topics of opposing viewpoints, logical fallacies (such as red herring, ad hominem, and straw man), making assumptions, statistical fallacies, and propaganda techniques. One semester credit for Introduction to Logic may be given upon completion of this two-book set.

Fine Arts Elective

Fine arts coursework emphasizes visual arts, instrumental or vocal music, dance, and theater. The lesson plans for *World History and Literature* (see p. 50) include detailed recommendations for earning a fine arts credit.

Health Elective Package

This one-semester course addresses physical, mental, social, and spiritual health both biblically and scientifically. The course presents the Bible as the foundation for a healthy lifestyle and provides students with the tools for making wise choices. The Health package includes *Total Health* student textbook and lesson plans developed by My Father's World. One semester credit.

Personal Finance Elective Package

This one-semester course will help the student evaluate money and possessions in light of a biblical worldview. It will also provide practical personal application of financial knowledge and money management skills. Three resources are scheduled in the lesson plans – *Money Matters for Teens Workbook*; *Money, Possessions, and Eternity*; and the Bible. We have discounted this package significantly to encourage all families to consider these important issues. Recommended for 11th and 12th graders.

Economics Package

This semester-long course will ground the student in understanding the basic principles of economics. Includes online access to additional assigned materials. The Economics Package contains three resources: *Economics for Life* (includes one Student Guide); *Common Sense Economics*; and *Money, Greed, and God*. All items in this package are included with the *U.S. History 1877 to the Present* package. One semester credit. See pp. 54-55 for details.

The Official SAT Study Guide

The *Official SAT Study Guide* contains 4 practice tests created by the test maker. With over 300 pages of instruction, guidance, and tips, this volume will prepare students to do their best on the revised SAT test.

The Official ACT Prep Guide

The *Official ACT Prep Guide* is the best resource for students preparing to take the revised ACT Test. This guide includes three actual ACT Tests with detailed explanations for the correct answers. Filled with test-taking strategies and tips, this volume will help students boost their scores and be fully confident on test day.

CLEP College Composition

CLEP History of the United States 1

Earn college credit while still in high school! Both books include a comprehensive review and full-length practice exams. After completing our *U.S. History to 1877* high school year, students can use these resources to review for CLEP tests and possibly earn college credit. Even students who don't plan to attend college may want to consider CLEP credits.

CLEP Professor College Algebra review course is included FREE on the DIVE *Algebra 2* CD in MFW's *Algebra 2 Complete Package*. (See p. 63 to order.) Saxon *Algebra 2* contains almost all the material covered on the CLEP College Algebra exam. Students who do well in Algebra 1 and 2, with a little extra study using CLEP Professor, will generally be able to pass the CLEP College Algebra exam.

My Father's World Foreign Language Enrichment Guide

My Father's World recommends learning a foreign language with *Rosetta Stone*® or another of the wide array of foreign language courses available. Our guide can be used with any course you choose.

This enrichment guide provides the framework to complete one year of foreign language study and to gain one high school credit in foreign language. The guide can be repeated in future years to gain additional high school credits. The suggestions contained in this guide can also be used with younger students to enrich their learning experience, adding cultural activities, audio review, and other language-related activities. Learn more at: mfwbooks.com/foreignlanguage

See more Trusted Resources at mfwbooks.com/resources

My Father's World is a literature-rich curriculum that strives to provide the best choices for reading while keeping annual curriculum costs at a minimum. All required books are included in the curriculum packages. In addition, an extensive list of highly recommended (yet optional) library books – organized by week, theme, and reading level – is included with each year of our curriculum. This list allows My Father's World to provide excellent options for children of all reading levels. There are four types of reading in our programs:

Read-Alouds

Each year of curriculum for 2nd – 8th grades provides a core set of books for Bible, history, and science to be read aloud together as a family, followed by parent/teacher-led discussion, narration, and other activities designed for retention. Engaging literature, including missionary biographies and other life-impacting classics, is scheduled in our Teacher's Manuals.

Independent Reading at Grade Level

Independent reading from chapter books is scheduled daily for 20–30 minutes. Books may be selected from a list of over 100 classic titles organized by grade level, *Book Basket*™ recommendations, or other chapter books of your choosing.

I overheard my kids discussing something I didn't teach them. Amazed, I asked, "Where did you learn that?" Their reply? "Book Basket!" – Meredith

Reading for Comprehension

Customers choosing to follow My Father's World's recommendations for language arts (p. 59) complete activities by grade level that provide both written and oral comprehension activities in response to various reading assignments.

Thematic Independent Reading (*Book Basket*™)

Book Basket™ is designed to develop a love for reading using "living" books. Each of our Teacher's Manuals recommends hundreds of colorful picture books, chapter books, fascinating biographies, and DVDs related to the history, geography, music, and science taught each week. Some of these books may be borrowed from the library

and placed in a simple basket (or box) at home. Students choose books that most interest them, exposing them to a wide variety of literature while enriching their learning experience. Children who love to read also love to learn. Learn more at: mfwbooks.com/bookbasket

Language Arts FAQs

Visit: mfwbooks.com/languagearts to answer questions such as:

- When is it best to teach parts of speech?
- Why does My Father's World recommend *Language Lessons for Today*, *Spelling Power*, *Writing Skills for Today*, and *Writing with Skill*?

Kindergarten – 1st Grade

God's Creation from A to Z and *Learning God's Story* Deluxe Packages cover all needed language arts. In addition, we recommend *God's Big WORLD* magazine (age 3 to 1st grade).

2nd–8th Grade

Many language arts skills are integrated into history, science, and Bible activities in our curriculum:

- Narration, copywork, dictation, and memorization
- Informal handwriting practice
- Read-aloud literature
- Vocabulary
- *Book Basket*™ – extensive library lists for read-alouds and readers
- Letter writing
- Composition in science and history

Add grade-specific resources as a supplement to assure a well-rounded, complete language arts program (see pp. 60 and 61). We recommend:

2nd Grade

- *Language Lessons for Today Grade 2*
- *Spelling by Sound and Structure*
- *WORLDkids* magazine

3rd Grade

- *Language Lessons for Today Grade 3*
- *Merriam-Webster's Elem. Dictionary*
- *Spelling Power*
- *Handwriting*
- *WORLDkids* magazine

4th Grade

- *Language Lessons for Today Grade 4*
- *Merriam-Webster's Elem. Dictionary*
- *Spelling Power* (and Activity Cards)
- *Writing Skills for Today Level A*
- *WORLDkids* magazine

5th Grade

- *Language Lessons for Today Grade 5*
- *Spelling Power* (and Activity Cards)
- *Writing Skills for Today Level B* (Students who did not complete Level A should use Level A this year and Level B in 6th grade.)
- *WORLDkids* magazine

6th Grade

- *Language Lessons for Today Grade 6*
- *Spelling Power* (and Activity Cards)
- *Writing Skills for Today Level C* (Students who completed only Level A should use Level B; students who have not used *Writing Skills for Today* should complete Level A this year.)
- *WORLDteen* magazine

7th Grade

- two Progeny Press literature guides
- *Spelling Power* (if needed)
- *Writing with Skill Level 1* (first half of book)
- *Collegiate Thesaurus*
- *Applications of Grammar* (If no previous basic instruction in nouns, verbs, etc., also complete *Language Lessons for Today Grade 6* in the first eight weeks.)
- *WORLDteen* magazine

8th Grade

- two Progeny Press literature guides
- *Spelling Power* (if needed)
- *Writing with Skill Level 1* (second half of book)
- *Collegiate Thesaurus*
- *Easy Grammar Ultimate Series: Grade 8*
- *WORLDteen* magazine

9th–12th Grade

Our high school curriculum covers all needed language arts including writing instruction and assignments (composition), grammar, literature analysis, and reading lists. Consider *WORLDteen* (9th grade) or *WORLD* magazine (10th–12th grade).

NOTE: An incoming student weak in formal grammar should complete *Easy Grammar Ultimate Series: Grade 8* (p. 60). Likewise, a student weak in composition skills should complete *Writing with Skill Level 1* (at least half of the book) (p. 61).

2nd–8th Grade

Language Lessons for Today – Grades 2, 3, 4, 5, and 6

Using a Charlotte Mason and classical approach, these short, easy-to-teach lessons cover English usage, punctuation, composition, oral language skills, letter writing, narration, picture study, grammar, copywork, and dictation, as well as fables and poetry by famous authors. These non-consumable books (not workbooks) may be used as presented or adapted to a child's specific needs and learning style.

Merriam-Webster's Elementary Dictionary

Recommended for use with *Language Lessons for Today* Grade 3 and 4 and for all students ages 8-11. Includes over 36,000 words with quotations from children's literature, as well as full-color illustrations.

Spelling by Sound and Structure Set (2nd Grade)

An excellent, time-efficient, back-to-basics approach. Only two workbook pages per week, with phonics review, synonyms, antonyms, syllables, and more. Includes student workbook (purchase one per additional student) and easy-to-use teacher's manual.

Spelling Power (3rd– 8th Grade & High School)

Give your child individualized spelling instruction in just 15 minutes a day. Includes Teacher's Online Resources and a Quick Start DVD. One book per family.

Spelling Power Activity Cards (4th – 6th Grade)

Contains 365 cards with a variety of hands-on games and activities.

Handwriting

Our curriculum includes handwriting instruction in kindergarten and first grade, and practical review in all other levels. When your child is ready for cursive (usually 3rd grade), use this simple workbook to teach a “modern handwriting” style.

Writing Skills for Today Levels A, B, and C (4th– 6th Grade)

Writing Skills for Today is our new companion product to *Language Lessons for Today*. *Writing Skills for Today* is based on *Writing Strands* by David Marks; we've been busy with edits and revisions to make the series even easier for you to use. We've also separated each year-long book into 68 easy-to-teach lessons (2 per week). Begin at Level A with 4th-6th graders.

Applications of Grammar Book 1 Set (7th Grade)

Thorough coverage of parts of speech, diagramming, and more. Includes workbook and answer key.

Easy Grammar Ultimate Series: Grade 8

In just 10 minutes per day, students review grammar, capitalization, punctuation, and composition skills. Excellent preparation for our high school English program.

Writing with Skill Level 1 (7th– 8th Grade)

These lessons (30–45 minutes per day) provide a strong foundation for high school composition. Complete two lessons per week, using the first half of the book in 7th grade and the second half in 8th grade.

Collegiate Thesaurus (7th– 8th Grade & High School)

A thesaurus is needed for *Writing with Skill* and is helpful for high school compositions. We recommend *Merriam-Webster's Collegiate Thesaurus* because of its thorough, scholarly content and ease of use.

Progeny Press Study Guides (7th– 8th Grade)

All 7th and 8th graders should complete two study guides each year. Select from the following:

- *Anne of Green Gables*
- *Eagle of the Ninth*
- *The Witch of Blackbird Pond*
- *The Swiss Family Robinson**
*requires the version of the book we carry
- *The Bronze Bow*
- *Golden Goblet*
- *Johnny Tremain*

Novels also available on our website.
See mfwbooks.com/languagearts

God's Big WORLD (age 3 – 1st Grade)

WORLDkids (2nd–5th Grade)

WORLDteen (6th–9th Grade)

WORLD (10th– 12th Grade & Adults)

God's Big WORLD, *WORLDkids*, and *WORLDteen* present age-appropriate articles biblically and vibrantly at different reading levels for your children. Great for *Book Basket™* or reading with parents. Includes six issues (mailed every other month) and access to fascinating digital content online and fun mobile apps for one year.

WORLD magazine features timely news written from an intelligent, biblical perspective and is renowned for its incisive journalism. Includes 26 issues (mailed every other week) and access to exclusive online digital content and convenient mobile apps for one year.

SCIENCE & MATHEMATICS

K - 6th Grade

Science is included in our kindergarten – 6th grade curriculum packages, preparing students for more advanced science programs recommended for 7th–12th graders. Science topics integrate with the historical time period being studied.

- Kindergarten, *God's Creation from A to Z* – Creation
- First Grade, *Learning God's Story* – Nature
- *Adventures in U.S. History* (2nd or 3rd grade) – General overview
- *Exploring Countries and Cultures* – Ecosystems
- *Creation to the Greeks* – Creation science
- *Rome to the Reformation* – Anatomy and astronomy
- *Exploration to 1850* – Botany and animal life
- *1850 to Modern Times* – Intro to physics and chemistry

The daily lesson plans are so fantastically easy to follow and so very rich... it would take me countless hours to do on my own.
– Amanda

7th–12th Grade

General Science Complete Package (7th or 8th grade)

- See our website for more information.

Physical Science Complete Package (8th or 9th grade)

- Exploring Creation with Physical Science textbook, tests and answers
- MFW *Daily Lesson Plans* (included free)

Biology Complete Package

- Exploring Creation with Biology textbook, tests and answers
- MFW *Daily Lesson Plans* (included free)

Chemistry Package

- Discovering Design with Chemistry textbook, answer key and tests (Prerequisite: Algebra 1)
- MFW *Daily Lesson Plans* (included free)

Physics Package

- Exploring Creation with Physics textbook, tests and answers
- MFW *Daily Lesson Plans* (included free)

•Anatomy–Advanced Biology Package

- Human Body textbook, tests and answers
- Anatomy Coloring Book (Prerequisites: Biology, Chemistry)

Kindergarten – 1st Grade

God's Creation from A to Z and *Learning God's Story* cover all needed math; no supplementation is needed.

2nd–6th Grade

Singapore Math® Primary Mathematics U.S. Edition includes a strong mental math component (unlike many U.S. programs). Logical, unique strategies help students truly understand mathematical concepts, and creative problem solving is encouraged as students are taught several methods to arrive at the same solution. The manageable number of workbook problems students complete daily, along with its effective parent- and student-friendly format, makes

this a program we highly recommend. See our website for more information and to order.

7th–12th Grade

We recommend Saxon Math with one year of Jacobs Geometry. Our complete math packages include the tools you need for older students to work more independently.

- Daily Lesson Plans developed by My Father's World assign specific problems each day.
- DIVE CDs teach each lesson in the Saxon textbooks.
- Solutions Manuals (highly recommended) show each problem worked out step-by-step. See our website for more information and to order.

Mathematics Supplemental Materials

Horizontal Addition and Subtraction Flashcard Set Horizontal Multiplication and Division Flashcard Set

My Father's World developed these horizontal flashcards to provide an effective way to mentally practice math facts consistent with *Singapore Math®*. Addition and subtraction facts to 18. Multiplication and division facts to 81.

Fast Facts

My Father's World developed Fast Facts to provide written practice of math facts consistent with *Singapore Math®*. Includes cards for addition, subtraction, multiplication, and division. Simply fill in the answers and flip the card over to check.

[My Father's World] has inspired a love of learning in me... that I did not have when I was in school.
– Tammy

MEET THE AUTHOR: MARIE HAZELL

Marie Hazell is a speech and language specialist with a master’s degree and teaching credentials. After completing her degree, she taught in a special language kindergarten where her interest in teaching children and adapting to their various learning styles developed. She then taught kindergarten and first grade in a Christian school, which challenged her to develop a program that focused on both strong and weak learners, often at different levels. With her background in the educational system, and then becoming the mother of six children, she realized the importance of the family in the educational process. Combining her experience and knowledge, she developed a Bible-based program for both homeschools and classrooms. Writing from her deep desire to further God’s kingdom, she continues to develop curriculum that is a unique combination of her own observations, Charlotte Mason’s ideas, and classical education, providing an international focus and biblical worldview.

HELP CHANGE LIVES! Together We Can Make A Difference!

About 6,800 languages are spoken in the world today. Fewer than 700 have a complete Bible. Together we can invest in bringing God's Word to Bible-less people everywhere. Watch amazing short videos about Bibles online with your children at: mfwbooks.com/missions

A portion of our profits supports mission work overseas, especially Bible translation projects. Our heart's desire is that someday soon all people would be able to read of God's love in their own language.
