

Pegboard and Pegs

1

Math

Counting—beginner

Help me count these pegs one by one as we place them in the pegboard. Let's make sure we count from left to right.

Let's start again with a few pegs and then add a few more and see how many we have. Place 3 pegs side-by-side. Count them from left to right. Add 2 more pegs, and count again—beginning at the left.
